

The screenshot shows a web browser window with the title "2010-Actualitat: Cloud Computing". The page content is displayed in a dark-themed code editor. The code is an HTML file with various CSS and JavaScript imports. A vertical sidebar on the left lists several files, including "index.html", "ra1.html", and "ra1\_backup.html". The main content area shows the following code:

```

Ara, en lloc de comprar servidors, els "lloguem" per hores. Netflix no té cap servidor propi, utilitza Amazon Web Services. Quan estrenen una sèrie nova i milions de persones la veuen, simplement "lloga" més capacitat per unes hores. Quan baixa la demanda, deixa de pagar per aquests recursos extra. Pagues pel que uses, quan ho uses.
